SUMMARY

Dynamic Ethical Hacker and Cybersecurity Analyst with hands-on expertise in **penetration testing, threat intelligence, vulnerability management, and incident response**. Skilled in **network security, cloud security (AWS, Azure), and security automation** using **Python, PowerShell, and Bash scripting**. Proficient with **SIEM tools (Splunk, QRadar, ELK), IDS/IPS systems, and endpoint protection frameworks** to detect, analyze, and mitigate cyber threats in real time.

Adept at conducting **offensive security assessments, red team simulations, and digital forensics investigations** while ensuring compliance with **NIST, ISO 27001, GDPR, and SOC 2 standards**.

Experienced in **OWASP Top 10, DevSecOps, Zero-Trust Architecture, IAM, and encryption technologies** for securing enterprise infrastructures.

Demonstrated success in **risk assessment, attack surface reduction, and proactive threat hunting**, leveraging frameworks like **MITRE ATT&CK and Cyber Kill Chain**. Passionate about developing **AI-driven security models**, enhancing **cloud posture**, and implementing **automated defense mechanisms** to strengthen overall cybersecurity resilience.

Experience

SOC Analyst | CyboSec Technologies

2026 – Present

- Monitor and investigate security alerts using SIEM, EDR, and XDR platforms.
- Perform Level 1 SOC triage, incident analysis, and initial threat investigation.
- Analyze endpoint, network, and authentication logs to identify suspicious activities.
- Investigate malware, ransomware, phishing, brute-force, and privilege escalation alerts.
- Correlate events using MITRE ATT&CK techniques and threat intelligence.
- Document findings, recommend remediation, and escalate incidents when required.
- Work with security tools including Todyl, Microsoft Defender, and other SOC technologies.
- Create incident reports and maintain accurate case documentation.

Bug Bounty Hunter / Security Researcher | CyberComOlho Platform Current

Profile: <https://cyber.comolho.com/researcher/profile/pranavjeyanv/>

- Participated in multiple live bug bounty programs, identifying security vulnerabilities in real-world web applications.
- Reported valid vulnerabilities, with multiple submissions reaching **"Internally Reviewed"** status.
- Specialized in web application security testing using **OWASP Top 10** methodologies and manual exploitation techniques.
- Conducted reconnaissance, vulnerability analysis, and proof-of-concept (PoC) development for responsible disclosure.
- Received a **Certificate of Appreciation** from the **Nykaa Bug Bounty Program (2026)** for responsibly reporting cybersecurity vulnerabilities.

Cybersecurity Intern | Innoknowvex, Bengaluru

2025

- Identified OWASP Top 10 vulnerabilities including SQL Injection, XSS, and security misconfigurations.
- Performed network scanning and enumeration using Nmap.
- Analyzed PCAP files using Wireshark to identify suspicious network activity.
- Investigated TCP/IP, DNS, HTTP/HTTPS traffic and malicious communication patterns.
- Conducted vulnerability assessments using Metasploit, SQLMap, and Nikto.
- Utilized Kali Linux and Oracle VirtualBox for penetration testing labs.
- Documented security findings with severity ratings and remediation recommendations.
- Strengthened incident detection and response skills through hands-on cybersecurity projects.

Ethical Hacker / Penetration Tester Intern | InLighnX Global Private Limited, Bengaluru

2025

- Performed penetration testing and vulnerability assessments on web applications and networks.
- Identified security vulnerabilities and collaborated on remediation activities.
- Conducted threat assessments and security evaluations.
- Automated security testing tasks to improve assessment efficiency.
- Prepared technical reports and presented findings to stakeholders.
- Maintained knowledge of emerging cyber threats and offensive security tools.

Cybersecurity Analyst Intern | Manvian, Chennai

2025

- Network Security
- Threat Detection & Mitigation
- Vulnerability Assessment
- Penetration Testing (VAPT)
- Security Information and Event Management (SIEM)
- Intrusion Detection & Prevention Systems (IDS/IPS)
- Endpoint Security
- Risk Assessment & Management
- Firewall Configuration & Monitoring
- Cloud Security (AWS / Azure / GCP)
- Incident Response & Recovery
- Malware Analysis
- Data Encryption & Protection
- Cyber Threat Intelligence (CTI)
- Security Auditing & Compliance

Education

B.E CSE, 2021-2025

Chettinad College of Engineering and Technology, Karur

- Graduated with a Bachelor of Engineering in Computer Science and Engineering

- Achieved a CGPA of 7.5/10, ranking in the top 5% of the class
- Completed a capstone project on AI-based predictive analytics
- Secured 1st place in EDII hackathons 2024-25 State Level
- Received the Best Project Award at the annual tech Project Expo

Skills & Abilities

- Penetration Testing
- Network Security
- TCP/IP / Networking Protocols
- Firewalls & VPNs
- Intrusion Detection Systems (IDS)
- Intrusion Prevention Systems (IPS)
- Security Information and Event Management (SIEM)
- Web Application Security (OWASP Top 10)
- Risk Assessment & Risk Management
- Vulnerability Assessment
- Secure Coding / Secure SDLC
- Malware Analysis
- Endpoint Detection & Response (EDR)
- Reverse Engineering
- Cloud Security (AWS, Azure, GCP)
- Identity & Access Management (IAM)
- SOC Operations
- Vulnerability Scanning Tools (Nessus, OpenVAS)
- Privilege Escalation Prevention
- Log Correlation
- Cloud Access Security Broker (CASB)
- Application Programming Interfaces (APIs) security
- Security Orchestration, Automation, and Response (SOAR)

Certifications

- CEH (Certified Ethical Hacker) – EC-Council
- OSCP (Offensive Security Certified Professional) – Offensive Security
- CompTIA PenTest+ – CompTIA
- CompTIA Security+ – CompTIA (*great entry-level, ATS favorite*)
- CySA+ (Cybersecurity Analyst) – CompTIA
- GSEC (GIAC Security Essentials Certification) – GIAC
- Blue Team Level 1 (BTL1) – Security Blue Team
- CCSP (Certified Cloud Security Professional) – (ISC)²
- AWS Certified Security – Specialty
- Microsoft Certified: Cybersecurity Architect Expert
- Google Professional Cloud Security Engineer
- CISM (Certified Information Security Manager) – ISACA
- CISSP (Certified Information Systems Security Professional) – (ISC)²
- ISO 27001 Lead Implementer / Lead Auditor

Awards and Honors

- Received Dr. Kalam Young Achiever Awards 2023 organized by the World Youth Federation on Oct 2023.
- Winner in EDII 2024-25.
- Won 2nd place in Project Expo organized by Chettinad tech on Nov 2023.
- Won 2nd place in Project Expo organized by Chettinad tech on Nov 2024.
